

PROCTORED COMPETITION: INSTRUCTIONS FOR PROCTOR
Automotive Refinish Technology

1. The total allotted time for the CRT competition is 4 hours plus an additional 10 minutes for participant **INTERVIEW QUESTIONS** at the end of the competition. Breakdown times for each Workstation within the competition are provided within the Workstation Instructions.
2. Confirm the Competition area has **sealed** packages labeled for the appropriate competition. Intentional tampering or opening of the package prior to recording will result in the participant failing the competition.
3. Identify & confirm there are workstations for each competition station: Color Tinting, Featheredge Prime & Block, Spot Refinish, Paint Identification & Masking
4. Ensure no interference/outside assistance to the participants occurs during the competition time
5. Ensure participants stay within their designated Workstation during the allotted time and do not interact/interfere with any other Workstations.
6. Please verify the competitors have their SkillsUSA identification number clearly visible on their person and it is captured during the recording – maintaining Social Distance spacing.
7. Recording tools are fully charged, clear of interference (i.e., phone set to 'Do Not Disturb', video camera has cover removed, lens is clean), and charging source available.
8. Recording begins BEFORE the boxes are opened. Participants do not begin until the recording starts.
9. Once the box is opened, participants have 20 minutes to prepare.
10. A continuous, quality video recording of each participant throughout each workstation process is required. Clearly record the participant executing the entirety of their Automotive Refinish process (avoid back of body shots) at each Workstation.
11. The continuous recording can be paused during a designated break time. Clearly indicate the start of break time and pause the recording. Recording commences after the participant returns and prior to the student beginning their Automotive Refinish process.
12. **INTERVIEW QUESTIONS:** As a wrap up, (participants have completed all Workstations), each participant is to be individually recorded answering the interview questions on page 2 of these instructions. **(10 minutes per participant)**
 1. **Tell us about yourself.**
 2. **Why did you choose to participate in the Automotive Refinish competition?**
 3. **What is the #1 priority in the collision/refinish industry?**
 4. **Who needs to be more detail-oriented body technician or painter?**

Save and submit all recordings to SkillsUSA via the approved process.
